WHAT HAS CHANGED IN 23 YEARS?

- 1. Economic growth in the area – particularly in building renovation and small business –increasing the amount of vehicle activity
- 2. Increased ownership of cars and other vehicles
- 3. Increase in the size of cars.
- 4. The speed of driving seems to have risen
- 5. Increased number of internet driven home deliveries
- 6. Unsuitably large vehicles using the lane – probably because of satnav.
- 7. Resultant dangers to walkers and children in the vicinity of the caravan site and at footpath exits. Modern vehicles are much quieter and often cannot be heard easily when approaching.
- 8. Increase in the number of days that Parkdean is open each year with consequent increase in employees and their hours
